

Co-enrolment with the PRISM Trial

Version 1.3

Effective: 1st September 2017

The following studies have been approved for co-enrolment with the PRISM Trial:

AM-ARDS - A research study to investigate whether transgenic mesenchymal stem cells expressing hydroxysteroid dehydrogenase type-1 can attenuate inflammation in Acute Respiratory Distress Syndrome

IRAS (UK): 204225

Add Aspirin Trial: A phase III, double blind, placebo controlled, randomised trial assessing the effects of aspirin on disease recurrence and survival after primary therapy in common non-metastatic solid tumours.

ISRCTN: 74358648

Aristotle: A phase III trial comparing standard versus novel CRT as pre-operative treatment for MRI defined locally advanced rectal cancer

ISRCTN: 09351447

Balanced: The influence of anaesthetic depth on patient outcome after major surgery (The BALANCED Anaesthesia Study).

Clinical Trials Gov: NCT02073357

EDICT: Exercise inDuced Changes In Colorectal Cancer Tissues

Clinical Trials Gov: NCT02056691

ESPAC 5F: European Study group for Pancreatic Cancer - Trial 5F

ISRCTN: 89500674

Please liaise with the ESPAC 5F team whether patient can be co-enrolled.

Fast Track Faecal Calprotectin: Prospective Assessment of the Predictive Power of Faecal Calprotectin in Patients with Fast Track Colorectal Symptoms.

IRAS (UK): 156515

Foxtrot: Fluoropyrimidine, Oxaliplatin & Targeted Receptor pre-Operative Therapy for colon cancer. A randomised trial assessing whether preoperative chemotherapy and/or an anti-EGFR monoclonal antibody improves outcome in high-risk operable colon cancer.

ISRCTN: 87163246

Please notify the Foxtrot team which patient has been co-enrolled.

GAPS: Graduated compression as an Adjunct to Pharmacoprophylaxis in Surgery

ISRCTN: 13911492

HIP: Hartmann's procedure versus Intersphincteric APE (HiP Study)

Clinical Trials Gov: NCT02702089

ICON8B: A phase III randomised trial investigating the combination of dose-fractionated chemotherapy and bevacizumab compared to either strategy alone for the first-line treatment of women with newly diagnosed high-risk stage III-IV epithelial ovarian, fallopian tube or primary peritoneal cancer.

ISRCTN: 10356387

PANasta - Cattell Warren versus Blumgart techniques of pancreatico-jejunostomy following pancreato-duodenectomy – a double blinded multi-centre trial

ISRCTN: 52263879

Poppi: Psychological Outcomes following a nurse-led Preventative Psychological Intervention for critically ill patients.

ISRCTN: 53448131

Polymorphic Variations in Asthma Genes Trial: Screening of target genes for polymorphic variation which may alter treatment response for airway treatment targets.

CRN ID (UK): 3902

PQIP: Improving perioperative care through the use of quality data: Patient Study of the Perioperative Quality Improvement Programme.

IRAS (UK): 215928

Prepare-ABC: Supportive Exercise Programmes for Accelerating Recovery after major Abdominal Cancer surgery

ISRCTN: 82233115

PREVENTT: A randomised double-blind controlled phase III study to compare the efficacy and safety of intravenous ferric carboxymaltose with placebo in patients with anaemia undergoing major open abdominal surgery.

ISRCTN: 67322816

REST: A pragmatic randomised controlled trial to determine whether Extracorporeal Carbon Dioxide Removal (VV-ECCO2R) and lower tidal volume mechanical ventilation in patients with hypoxaemic respiratory failure improves 90 day mortality

ISRCTN: 31262122

ROCKeTS Study: A test accuracy study to validate new risk scores in women with symptoms of suspected ovarian cancer protocol

ISRCTN: 17160843

The 65 Trial: Evaluating the clinical and cost-effectiveness of permissive hypotension in critically ill patients aged 65 years or over with vasodilatory hypotension

ISRCTN: 10580502

TEST-IT: Point Of Care Testing For Sepsis In ICU Patients: A Diagnostic Accuracy Study.

ISRCTN: 97997760

POETICS (VIP1): Prospective study on over eighty year old intensive care patients. This study is being undertaken in the UK and is part of a larger multinational multi centre study called VIP (Very old ICU Patients)

IRAS (UK): 212594

If you would like to co-enrol a patient a patient with another study not listed above, please contact us on admin@prismtrial.org including the primary endpoint and the protocol of the study and we will get back to you as soon as possible.
