

PRISM

Newsletter

ISSUE 11, September 2018

Welcome to the 11th PRISM trial newsletter. We hope that everyone has had a lovely holiday season and are ready to get back to work! We are persistently moving towards our final target having recently recruited our **3500th patient!** Congratulations to the Mater Domini Hospital in Catanzaro, Italy for randomising the patient! A big well done to the teams in **Karolinska, University Hospital Birmingham** and **San Paolo Hospital, Milan** as well for making it into the PRISM 100 club. Fantastic work everyone!

PRISM 100 club

- ◆ Oslo University Hospital, 269 patients
- ◆ Leicester Royal Infirmary, 164 patients
- ◆ The Royal Marsden Hospital, 156 patients
- ◆ Aneurin Bevan UHB, 155 patients
- ◆ Sapienza Universita di Roma, 136 patients

- ◆ Antrim Area Hospital, 114 patients
- ◆ University Hospitals Birmingham, 110 patients
- ◆ Karolinska University Hospital, 107 patients
- ◆ Ospedale San Paolo, Milano, 101 patients

Tips & Tricks

What can you do to increase recruitment?

- Get more colleagues involved in approaching and consenting patients.
- Let the patient try the CPAP mask/hood prior to consenting. This will reduce patient refusals later on.
- Keep a close eye on the pre-assessment clinic and theatre lists for eligible patients
- Explain the trial in simple and easily understandable words.
- Be flexible - occasionally come in early or stay late to ensure eligible patients are consented and randomised.

Mark the date!

With an interim analysis around the corner we need everyone's help with ensuring that the outcome is as accurate as possible.

In order to help us, please make sure that the primary outcomes for as many patients as possible are entered by the **23rd of October!**

Every patient counts!
