ISSUE 7, OCTOBER 2017

## 2000th patient special edition

Welcome to the seventh PRISM trial Newsletter. We are excited to announce that we recently recruited our **2000<sup>th</sup>** patients to the trial - another major milestone! Congratulations to Royal Liverpool Hospital who randomised the 2000<sup>th</sup> patient. This is a fantastic achievement as there are very few trials that recruit on this scale. We have also generated interest from some of the major journals in our field. Thank you to all our investigators for your continued support for the trial!

Congratulations to Oslo University Hospital, Aneurin Bevan, Sapienza Universita di Roma and Leicester Royal Infirmary for recruiting more than a 100 patients each!!!

### ***PRISM study group***

With such a large number of investigators working on PRISM, we would like to ensure that everybody is recognised for their work. For authors to be listed in the PRISM publications, please register yourself on our database ([database.primtrial.org](http://database.primtrial.org)) as soon as possible.

### ***Amendment***

Thank you to everyone who has already sent us their confirmation of implementing the amendment. If you have not yet sent us the protocol v1.6 signature page confirming the implementation of the document set, we would be grateful if you could do so at your earliest convenience.

# Thank you teams!
